My Payment Network Announces Pay at PC Expanding Their Portfolio of Compatible K12 Payment Solutions

Pittsburgh, PA May, 2010 - My Payment Network, the leader in K12 electronic payments, announces Pay at PC, an easy, inexpensive, USB card reader that makes taking credit cards in a mobile environment a snap.

At just \$199.95 a unit, Pay at PC is priced right for schools. Enhancing the appeal, My Payment Network offers Pay at PC as a standalone, or bundled with their eCommerce solution. The bundled offer is the first K12 payment solution that integrates swiped and eCommerce transactions into a single reporting interface.

“Districts have taken credit cards for years; however, terminals are very difficult in the K12 setting. And while our eCommerce solution has enabled schools to offload a large number of payments that were traditionally managed manually, schools still needed a better “swipe” solution to keep lines moving quickly at registration, fundraisers, and other events where large groups of attendees are making payments”, said David Dunaway, CEO of My Payment Network. “While mobile solutions have been widely available, most have been price-prohibitive to schools until now”, added Dunaway.

About My Payment Network

My Payment Network, Inc. delivers the most easy and comprehensive electronic payment solutions to service businesses. They are the creator of The School Payment Network, K12's leading network of eCommerce solutions built specifically for schools, districts, and vendors that provide solutions via schools. The School Payment Network offers stand alone eCommerce solutions for public and independent schools, as well as solutions integrated into the administrative solutions today's leading schools already use. My Payment Network is based in Pittsburgh, PA. For more information, please visit either www.mypaynet.com or www.schoolpaymentnetwork.com
