AAL PARTNERS WITH MY PAYMENT NETWORK TO DELIVER INTEGRATED E-COMMERCE SOLUTION TO US SCHOOL DISTRICTS

BURLINGTON, On, May 12, 2008 - The Administrative Assistants, Ltd. (**aal**) is pleased to introduce **eSIS® Payments**, an exciting new online service that allows school Districts to securely pay for school expenses electronically via check or credit card.

Recognizing the increasing pressures faced by school districts to leverage efficient business practices and save school staff countless hours processing payments, the decision to create an integrated eCommerce solution within eSIS®, **aal**'s flagship Student Information System, was born.

Together with My Payment Network, the leader in K-12 electronic payments, a district-wide electronic solution was developed specifically for eSIS' Parent Assistant module. US school districts utilizing Parent Assistant can now offer parents 24/7 access to securely process payments for any type of school expense - from hot lunch, gym uniforms, to school field trips.

"eSIS Payments will allow our customers to streamline their administrative work associated with presenting and processing manual payments, all from the interface of an application in which they already use", said Brian Currie, President and CEO of **aal**. "It was important for our eCommerce solution to be easy and safe for districts while also robust enough to scale up to support the state-level needs for our largest customers"

David Dunaway, CEO of My Payment Network added, "We are thrilled to partner with **aal** to bring eCommerce to their wide base of K-12 customers. Our recent research conducted in cooperation with ASBO and NBOA revealed 30% of schools already have adopted eCommerce and 65% of schools report plans to establish or expand their eCommerce by the end of 2009-2010 school year. **aal** is making it easy for both schools and parents by linking eCommerce to the interfaces both groups already use.
